PRODUCT UPDATE RT1 COLOUR CHANGES

BLACK ROOF RAILS

SILVER LOGO BACKING PLATE

In April 2023, The standard colours of the RT1 and RT1 Overlander Roof Top Tents have been changed to offer a more universal colourway for our customers. Now standard with black rails and silver logo backing plates on all models, the tent colours will match a wider variety of canopies and roof rack colours. We believe that these changes will have a positive response as we phase out the orange decals from our roof top tents. From April 2023, all tents will be made with the same external colours, with the only discrepancy being the inclusions that the Overlander package offers versus our standard model RT1 Roof Top Tent. If you have any questions relating to these changes, please reach out to our sales team by calling our reception or emailing sales@bossaluminium.com.au.
