ADVENTURE READY

Since 2000, Boss Aluminium has been a leader in delivering top-quality 4x4 and trade solutions. We take pride in developing all of our products in-house, from innovative design to final manufacture. Our diverse range of modular options are tailored to meet your specific needs, ensuring the perfect solution for your ute, no matter the conditions.

CAPABILITY

For over two decades, Boss Aluminium has been dedicated to excellence in manufacturing, proudly offering 100% Australian-made products. Our commitment to innovation and quality has established us as a prominent leader in the industry. Leveraging state-of-the-art facilities and cutting-edge technology, we ensure that every product we deliver meets the highest standards. Our focus on continuous improvement and technological advancement allows us to stay at the forefront of the manufacturing sector, consistently providing top-tier solutions that meet the evolving needs of our clients.

Computer Aided Design (CAD): Every product begins in CAD, ensuring precise prototyping and seamless integration with our manufacturing processes.

3D Scanning: Our Artec Leo scanner measures complex geometries to 0.2mm, facilitating accurate design and reverse engineering.

Laser Cutting: With our LVD 12kW Phoenix Fibre Laser cutter with automation giving lights out capability, we handle precision cutting of sheet metal up to 4x2 meters and 30mm thick.

Brake Press Bending: Our LVD Easy Form Brake Press Bender and the Bystronic Mobile Bending Robot handle various materials and sizes, optimizing efficiency and precision.

Panel Bending: The Salvagnini P4L Panel Bender provides high efficiency and accuracy for large-scale sheet metal bending, integrating seamlessly with CAD.

Welding & Fabrication: We offer expert MIG and TIG welding and fabrication for both standard and complex projects, ensuring top quality.

Powder Coating: Our multi-stage dip process and chrome-free powder coating ensure optimal adhesion and environmental safety, delivering high quality finishes.

MATERIALS

At Boss Aluminium, we use a carefully chosen mix of aluminum alloys, with 5052 as the primary material, to ensure durability and performance in our trays and canopies. This approach allows us to match the right properties to specific applications, ensuring our products withstand tough conditions and maintain their integrity over time.

VEHICLE FITMENT

Boss Aluminium Trays are designed to fit the majority of utes available in Australia.

M-SPEC: Originally designed for mid-sized utes our M-Spec tray now caters to both mid and large sized utes from Triton through to F250.

Premium Tray: Our flagship Premium Tray is now also available for mid and large sized utes from 79 Series to Rangers, as well as the addition of the chopped 200 & 300 series Landcruisers.

MODULAR SYSTEM

Our products are built around modularity, allowing for easy customisation and reconfiguration. Choose from a wide range of components and options and work with our team to find the best configuration for you. This design flexibility supports a wide range of applications, from the commercial environment to exploring the furthest corners of Australia.

Modular Tray System

Our modular, M-Spec design allows for interchangeable configurations and easy adjustments to meet various needs.

Integrated Tie Down Rail

Built-in rail system for secure cargo attachment and enhanced load stability.

LED Tail Lights

High-performance tail lights that offer superior visibility and durability for enhanced rear lighting

Reverse Sensors and OEM Sonar

Integrated factory reverse, parking sensors, sonar brackets and wiring to maintain all OEM technology with the vehicle.

Checker Plate Tray Deck with Nutserts

Durable checker plate surface equipped with nutserts for versatile and secure tie-down options.

Integrated Headboard Electrical Plugs

Provisions for electrical plugs including Anderson Plugs (Solar, Canopy and Auxiliary) and Deutch plug

PREMIUM TRAYS

OUR FLAGSHIP

The Boss Aluminium Premium Tray represents the pinnacle of Australian-made trays. Building on the expertise gained from our M-Spec series, it offers a refined, all-in-one package. This tray is the ideal choice for those seeking a durable solution with all the bells and whistles.

Standard Dimensions

LC79 Dual Cab	-	1800L x 1850w
LC79 Single Cab	-	2400L x 1850w
STD Dual Cab	-	1800L x 1850w

Checker Plate Tray Deck with Nutserts

Durable checker plate surface equipped with nutserts for versatile and secure tie-down options.

Under-Body Boxes with Internal Shelving

Spacious under-body storage boxes with built-in shelving & carpet for organized and secure storage of tools and equipment. Size dependent options for compressor mount and shelving.

Under Tray Drawer

A large, easily accessible undertray drawer offering additional storage space for longer items.

Under Tray Food-Grade Polyurethane 70L Water Tank

A durable, food-grade 70L water tank made from polyurethane, seamlessly integrated under the tray for convenient water storage.

Premium Tail Lights

Free upgrade option to premium lights providing enhanced brightness and a sleek appearance.

Double Skinned Checker Tray Sides

Reinforced checker plate tray sides with a double skin for increased strength.

Multi-Function Headboard

Featuring integrated side & rear worklights, integrated fuel & AdBlue fillers with optional 85L stainless or 40L polyurethane water tanks.
